An act to add Sections 33544 and 51225.36 to the Education Code, relating to school curriculum.

LEGISLATIVE COUNSEL'S DIGEST

SB 695, as amended, De León. School curriculum: health education: sexual harassment and violence instruction.

Existing law requires the Instructional Quality Commission, during the next revision of the publication "Health Framework for California Public Schools," to consider including a distinct category on sexual abuse and sex trafficking prevention education, as specified.

This bill would require the commission to consider including a distinct category for grades 9 to 12, inclusive, on sexual harassment and violence, as specified, when that health framework is next revised after January 1, 2016. The bill would require the commission, if the commission includes a sexual harassment and violence category in the health framework, to comply with specified conditions.

Existing law requires each pupil completing grade 12 to satisfy certain requirements as a condition of receiving a diploma of graduation from high school. These requirements include the completion of designated coursework in grades 9 to 12, inclusive. Existing law authorizes a governing board of a school district to adopt other coursework requirements.

This bill would require the governing board of a school district that has elected to require its pupils to complete a course in health education

for graduation from high school to include instruction in sexual ~~assault~~ *harassment* and violence, as specified, and ensure that teachers consult information related to sexual harassment and violence in the health framework when delivering health instruction.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.
